RE: 813 GRADUATE HOUSE

813 Alice Avenue has been operated as long term transitional housing since 1995. A partnership between the City of Mountain View and InnVision Shelter Network, it's known as the "Graduate House", and provides the final step toward self-sufficiency for formerly homeless individuals.

After meeting their specified goals, program graduates become eligible for admission. Further strict criteria must also be met, including a thorough background check, maintaining employment, and a clean and sober lifestyle.

There is a resident manger on site, and room for five graduates. They are allowed up to 18 months to achieve financial independence before obtaining market rate housing.
